**Re: WC Docket No. 10-90, WC Docket No. 11-42  
2014 ETC Annual Report of Rye Telephone Company  
Study Area Code 462203**

Dear Ms. Dortch:

On behalf of Rye Telephone Company ("Rye"), JSI files the attached confidential and redacted versions of the FCC Form 481 ETC annual reporting information pursuant to sections 54.313 and 54.422 of the Commission's rules.<sup>1</sup> Rye seeks confidential treatment under Protective Order for section 54.313(f)(2) financial information.<sup>2</sup> The redacted version is also being filed this date via the FCC's Electronic Comment Filing System. In addition, attached is a letter requesting confidential treatment under Sections 0.457 and 0.459 of the initial section 54.202(a) Five-Year Service Quality Improvement Plan and of outage reporting.<sup>3</sup>

Please direct any questions regarding the filing to the undersigned.

Sincerely,

John Kuykendall  
JSI Vice President

**Re: WC Docket No. 10-90, WC Docket No. 11-42  
2014 ETC Annual Report of Rye Telephone Company  
Study Area Code 462203  
Request for Confidentiality**

Dear Ms. Dortch:

John Staurulakis, Inc. ("JSI"), on behalf of its client Rye Telephone Company (the "Company") hereby requests, pursuant to Sections 0.457 and 0.459 of the Commission's rules,<sup>1</sup> withholding from public inspection certain information contained in attachments to the above referenced reporting requirement. The Company provides the following in support of its request, numbered consistent with the subparagraphs of Section 0.459(b).<sup>2</sup>

1. The information for which the Company is seeking confidential treatment are attachments to the Company's annual reporting information pursuant to Sections 54.313 and 54.422 of the Commission's rules ("Report").<sup>3</sup>
2. Rate-of-Return Eligible Telecommunications Carriers ("ETCs") must file with the Commission an initial section 54.202(a) Five-Year Service Quality Improvement Plan ("Five-Year Plan")<sup>4</sup> and must also report outages, both of which are contained in attachments to the 2014 Report.
3. The information contained in attachments for which the Company seeks the withholding from public inspection is the entirety of data pertaining to the Company's Five-Year Plan provided at FCC Form 481 Line 112 attachment. The Company also seeks withholding from public inspection data pertaining to the Company's outages provided at FCC Form 481 Line 200 attachment, Service

<sup>1</sup> 47 C.F.R. §§ 0.457, 0.459.

<sup>2</sup> 47 C.F.R. § 0.459(b)(1) through (9).

<sup>3</sup> 47 C.F.R. §§ 54.313, 54.422.

<sup>4</sup> See *In the Matter of Connect America Fund*, WC Docket No. 10-90, Order DA 14-591 (rel. May 1, 2014).

Echelon Building II, Suite 200

Bountiful, UT 84010  
phone: 801-294-4576, fax: 801-294-5124

Outage Reporting. Information of this nature is confidential commercial information routinely withheld from public inspection.

4. With respect to identifying the degree to which the Five-Year Plan concerns a service that is subject to competition, the Line 112 attachment contains information of a financial and competitive nature regarding the provision of telecommunications services. The Line 112 attachment includes competitively sensitive information related to proposed improvements or upgrades and maintenance the Company's network.

In its *March 5, 2013 Order*, the FCC. The FCC specified that for rate-of-return carriers, the five-year plans "should describe the carrier's network improvement plan, which should provide greater visibility into current plans to extend broadband service to unserved locations in rate-of-return service territories."<sup>5</sup> Accordingly, because the Company is a rate-of-return carrier, it must file a five-year service improvement plan which contains proprietary, competitively sensitive information related to the Company's existing network including the specific locations of customers as well as describe proposed improvements or upgrades and maintenance of its network throughout its service area. Specifically, this information sets forth services provided by the Company over its existing network including specific locations of customers as well as planned network improvement and maintenance for the years 2015 through 2019 including project start and completion dates, population that will be impacted by the improvements and upgrades at the wire center level and projected capital costs associated with the improvements and upgrades and operating costs associated with maintaining the network including depreciation for investments that have already been made. As such, this information contains competitively sensitive information related to the Company's existing network as well as detailed plans at the wire center level for network upgrades and maintenance projected for the years 2015 through 2019.

With respect to identifying the degree to which the outage data contained in the Line 200 attachment concerns a service that is subject to competition, the information pertains to the network and operations of a telecommunications company that has competitors that could benefit if they were able to have access to this information.

5. With respect to identifying possible exposure to competitive harm, the information contained in the subject attachments is information that is not customarily released to the public. The Five-Year Plan information is proprietary to the Company, is unique to the Company's serving territory and is only known to the Company and its authorized agents. If the Information is not protected, it would have economic value to potential competitors who would be able to target their marketing to specific customers. In a competitive telecommunications marketplace, this type of information is highly sensitive. If publicly disclosed, it would enable competitors to craft business plans that capitalize on their knowledge of the locations of the Company's customers which would place the Company at a competitive disadvantage.

---

<sup>5</sup> See *Connect America Fund et al.*, WC Docket 10-90 *et al.*, Order, DA 13-332 (rel. Mar. 5, 2013) ("*March 5, 2013 Order*") at para 9 citing Section 54.202(a) (1) (ii).

6. With respect to steps the Company has taken to ensure against unauthorized disclosure of the information contained in the attachments, the Company is filing the Five-Year Plan and outage attachments under seal. The Company uses the information contained in the Five-Year Plan to ensure that its customers continue to receive state-of-the-art high quality telecommunications and broadband services that the Company has been providing to them for many years as well as to satisfy mandatory reporting requirements and does not share the information for which protection is sought. The Company protects the secrecy of this information with a security protocol that ensures the information is not inadvertently disclosed or disseminated. Only directors, managers and employees with a direct need to know are authorized to access the information.
7. Any previous versions of this information are not publicly available.
8. Because the information is not routinely available, a need exists for maintaining the confidentiality of this information permanently.
9. The Commission has previously concluded that there is a presumptive likelihood of substantial competitive harm from disclosure of outage information.<sup>6</sup> The Commission also determined the disclosure of outage reporting information to the public could present an unacceptable risk of more effective terrorist activity and could therefore result in potential harm to the public and the national defense.

Based on the preceding, JSI respectfully requests on behalf of the Company that the Commission grant confidential treatment under Section 0.459 to Company's Five-Year Plan provided at FCC Form 481 Line 112 attachment, and to the Company's outage data provided at FCC Form 481 Line 200 attachment.

Please contact the undersigned with any questions regarding this request.

Sincerely,

John Kuykendall  
JSI Vice President

Program Year – 2015

SERVICE QUALITY STANDARDS  
AND CONSUMER PROTECTION RULES COMPLIANCE

The Rye Telephone Company (“Rye”) is in compliance with applicable service quality standards and consumer protection rules.

Rye complies with consumer protection obligations under Colorado state law. Specifically, C.R.S. 6-1-101 (2013), Colorado Consumer Protection Act protects consumers and businesses against fraud and maintains a competitive business environment by enforcing state and federal consumer protection laws; enforcing state and federal antitrust laws; and advocating on behalf of residential and small business taxpayers.

Rye is regulated by the Code of Colorado Regulations, 4 CCR 723-2, Rules Regulating Telecommunications Providers, Services, and Products. These obligations include, but are not limited to, the following: (1) filing a Local Exchange Tariff which discloses rates, terms and conditions of service to customers (2) adherence to Quality of Service Standards, and (3) conforming to Customer Billing standards.

Rye is also subject to federal truth-in-billing requirements, has implemented CPNI and Red Flag Rules policies, and is complying with other applicable federal and state requirements governing the protection of customers’ privacy.

Rye is subject to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in F.C.C. 47 C.F.R. Part 8 §8.3.

The Rye Telephone Company  
FCC Form 481 – Line 610  
Program Year – 2015

Emergency Functionality Explanation Document:

**The Rye Telephone Company** hereby certifies that it is able to function in emergency situations as set forth in §54.202(a)(2).<sup>1</sup> The Company's voice and broadband network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations will also allow the Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, each central office building is supplied with standby generators and battery back-up that enable the central office to keep running until power is restored so long as fuel is available, or until system changes are made to reroute traffic. The Company's central office can maintain 8 hours battery reserve rated for peak traffic load requirements, and a permanent auxiliary power unit is installed which can be delivered and connected within four hours. The Company has battery backup at all office locations and in its electronic equipment sites. Length of run time is determined by the equipment serving the area and the number of customers working out of the equipment. Generators are installed at all Central Office locations. They will continue to run as long as the Company has access to fuel. The Company tests the batteries at least once per year.

---

<sup>1</sup> Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."
